NATIONAL ENERGY & UTILITY AFFORDABILITY COALITION

About NEUAC

The National Energy and Utility Affordability Coalition is a 501(c)(3) nonprofit organization that bridges the gap between states, social service organizations, utilities, and government to empower them to work together and learn from each other to protect families in utility crises. NEUAC is dedicated to heightening the awareness of the energy needs of vulnerable households through advocacy and education. NEUAC also works to educate utility assistance professionals on effective practices for program implementation and collaboration to improve outcomes for those experiencing energy poverty.

NEUAC's signature initiatives include the NEUAC Annual Conference, the largest gathering of utility assistance leaders for innovation, training, education, networking, and sharing common challenges and successes. Another key initiative is LIHEAP Action Day, an annual event in Washington, D.C., where advocates come together to educate Congressional members and staff about the critical need for continued LIHEAP funding. NEUAC membership extends benefits to entire organizations, ensuring that all employees can take advantage of these opportunities.
