All programs are designed to address customer utility billing challenges with both emergent and sustainable assistance with the expectation of customer payment responsibility.

- Every year, more than 125,000 PECO customers are helped through PECO Universal Services Programs. The value of PECO’s programs stand at over $100M annually. This includes direct grant assistance, rate discounts, and arrearage forgiveness.

- A delinquent customer with income eligibility can move from threat of termination to affordability through the combined utilization of several programs.
