Only 37.62% of the total eligible population in Vermont received LIHEAP in 2020

80.19%

of LIHEAP recipients in Vermont have at least one vulnerable member:

elderly over 60
44.24%

disabled
47.63%

child under 6
13.82%

Federal home heating/cooling assistance saves Vermont lives.

NEUAC urges Congress to maximize LIHEAP funding for FY22.

Why Maximize LIHEAP Funding?

The Low-Income Home Energy Assistance Program (LIHEAP) provides critical home heating and cooling help to millions of vulnerable American families. LIHEAP funding peaked when Congress appropriated \$5.1 billion for the program in FY09 and FY10. Since then, funding has fallen by more than one-third. Because of these cuts, one million fewer eligible households receive energy assistance, and average individual grants have been reduced.³

LIHEAP is not an entitlement.

Unlike entitlement programs, LIHEAP is funded by the annual congressional appropriations process. While states set eligibility rates, federal statute limits household income to a maximum of 150 percent of the federal poverty guideline, or 60 percent of the state median income. For example, 150 percent of the FY21 poverty guideline for a family of three is \$32,580.⁴ Most LIHEAP recipients earn much less than the maximum thresholds: data show that 82 percent of households served by LIHEAP had an annual household income below \$20,000.⁵

The need for LIHEAP remains high.

In 2019, the national poverty rate was 10.5 percent, and 34 million Americans lived in poverty.⁶

More than 1/4 of those who lost jobs during the COVID-19 crisis reported skipping or needing to skip a utility bill payment.⁷

22% of utility customers reported that they had reduced or put off expenses for basic needs like medicine and food in order to pay their utility bills.⁸

LIHEAP prioritizes vulnerable households, many of whom are also high risk for COVID-19.

More than 90 percent of LIHEAP recipient households have at least one vulnerable person - a senior aged 60 or older, a child aged 18 or under, or an individual with a disability.⁵

LIHEAP makes the difference.

The Federal Reserve found that nearly half of American families would struggle to pay for an emergency expense costing \$400.⁹ LIHEAP frequently meets those exact short-term emergencies and can be the difference between making ends meet or not.

Maximize LIHEAP Funding in FY22.
