

#### Big Data, Big Donors

Bill Freeman, GRID Alternatives (formerly Fuel Fund of Maryland)

Jordan Grable, ECHO Communicate

#### Fuel Fund Donor Acquisition Project

FY14-FY16

## The Challenge:

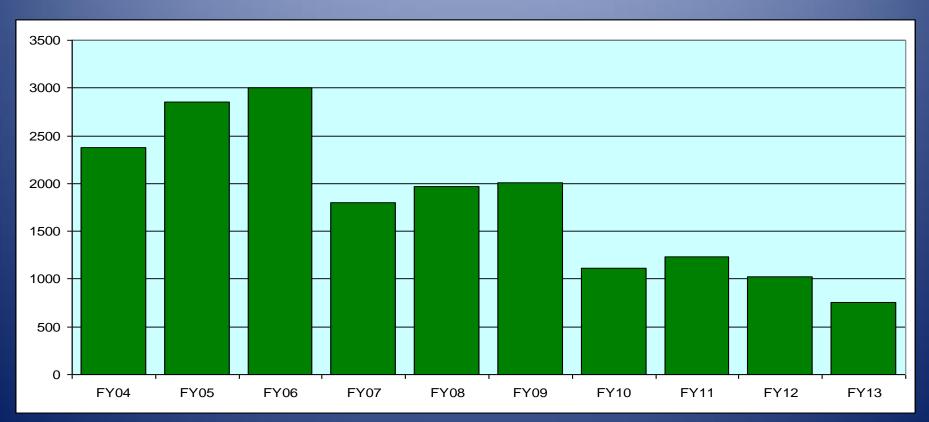

Acquire 8,000 new, <u>quality</u> donors in three years

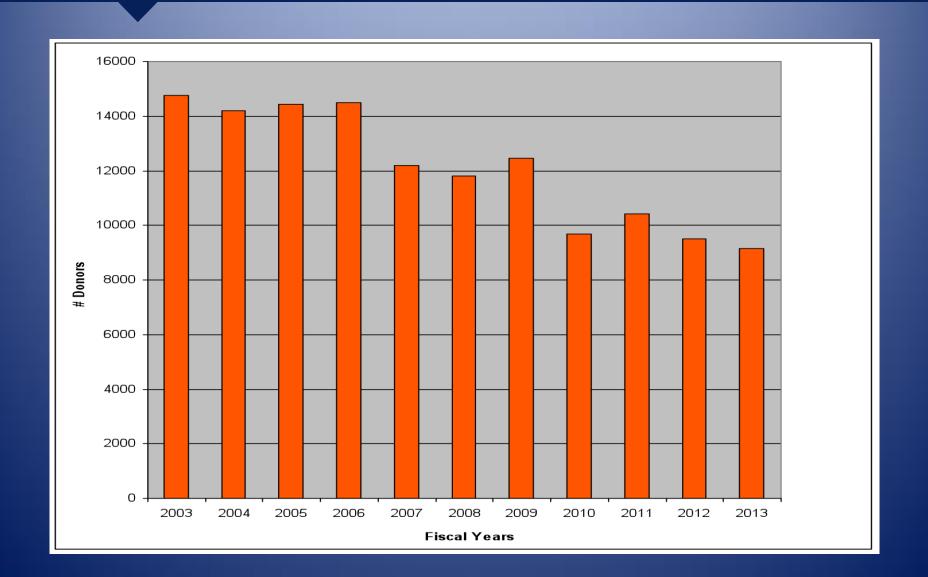

- No internal, owned acquisition mechanism
- A dry pipeline of new donors
- Need for more, and more reliable, revenue

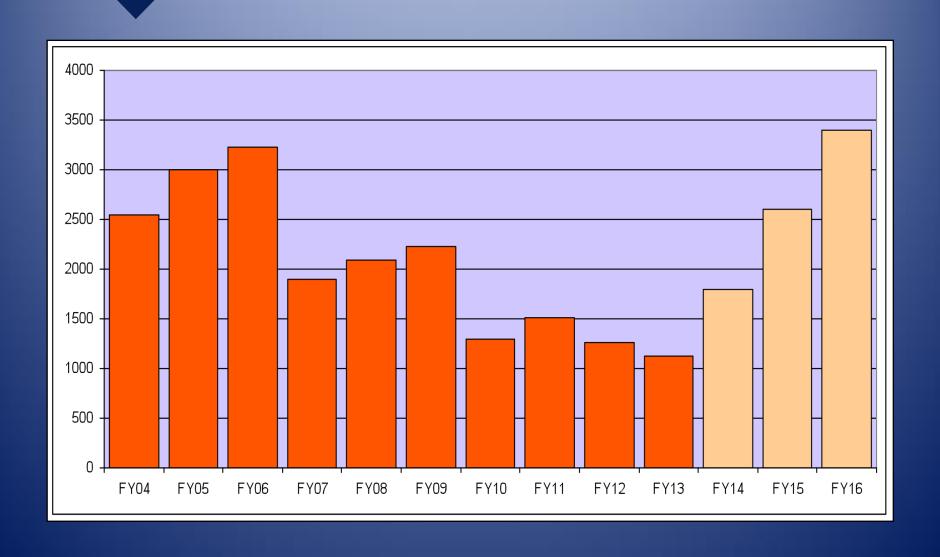

### BGE Envelope Donor Acquisition

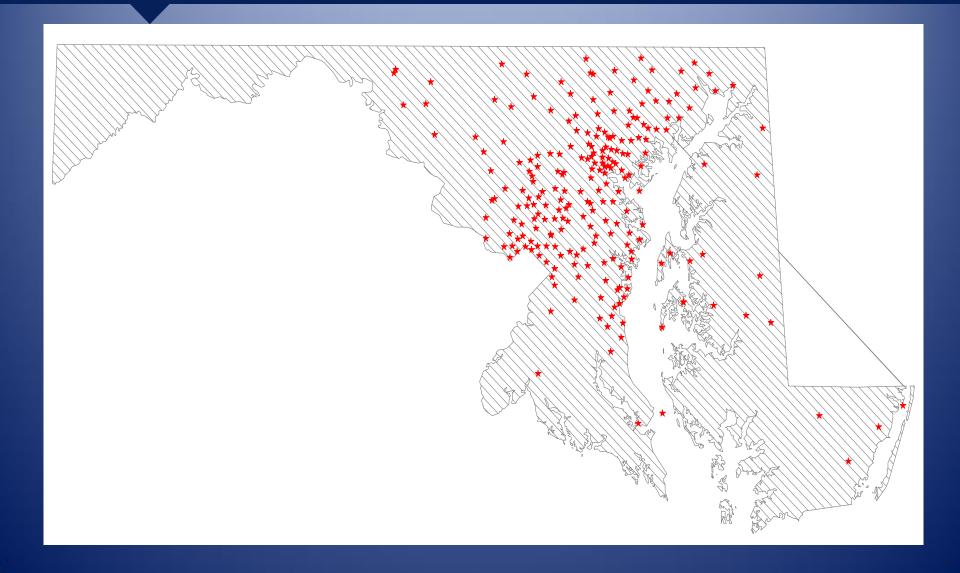

## Build from strength, but address your weaknesses

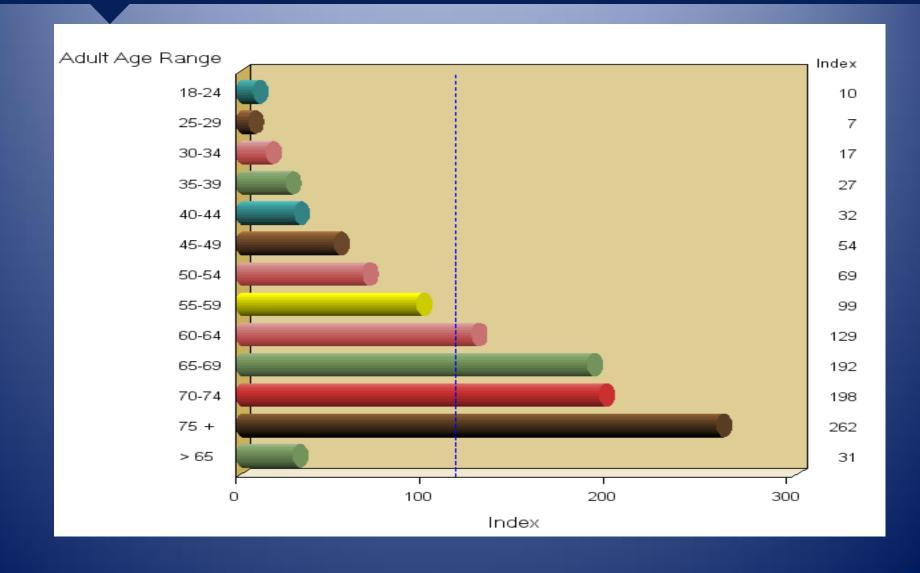

# To build from strength, you must know your strengths

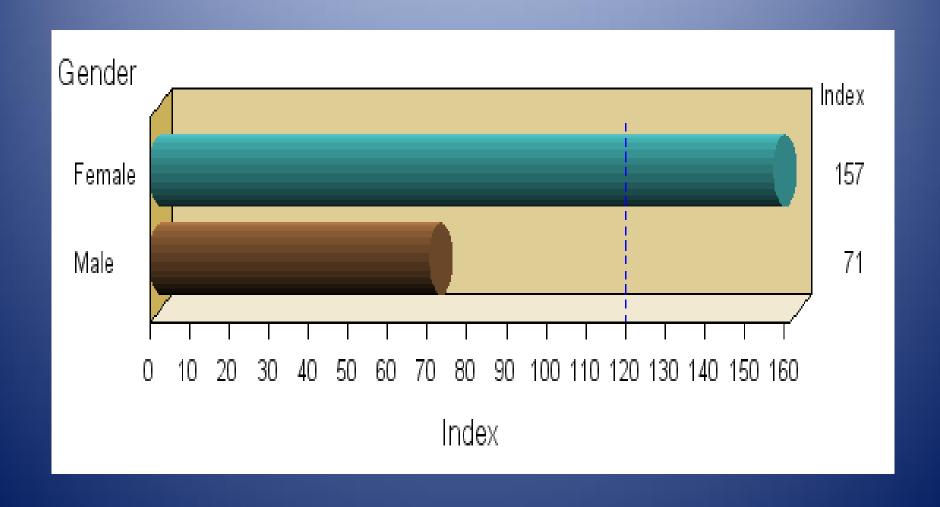

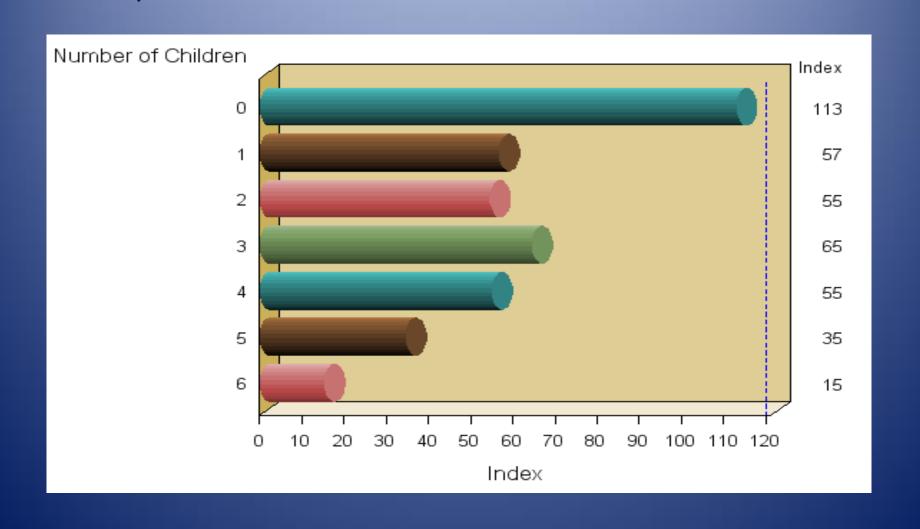

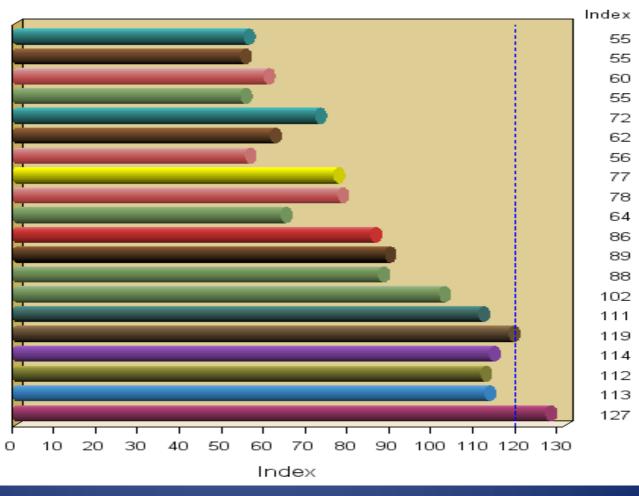

#### Household Income

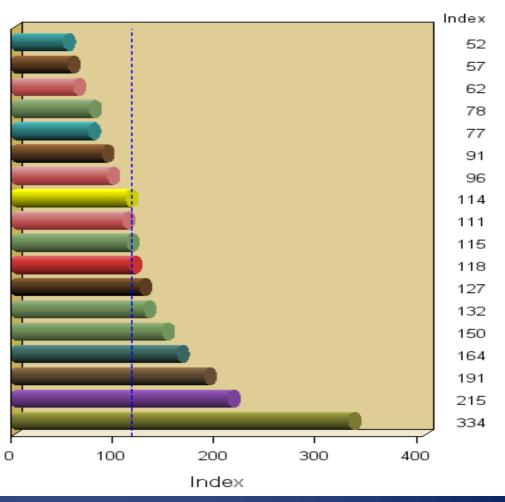

\$0 - \$10,000 \$11,000 - \$15,000 \$16,000 - \$20,000 \$21,000 - \$25,000 \$26,000 - \$30,000 \$31,000 - \$35,000 \$36,000 - \$40,000 \$41,000 - \$45,000 \$46,000 - \$50,000 \$51,000 - \$55,000 \$56,000 - \$60,000 \$61,000 - \$70,000 \$71,000 - \$80,000 \$81,000 - \$90,000 \$91,000 - \$100,000 \$101,000 - \$110,000 \$111,000 - \$120,000 \$121,000 - \$130,000 \$131,000 - \$140,000 \$141,000 +

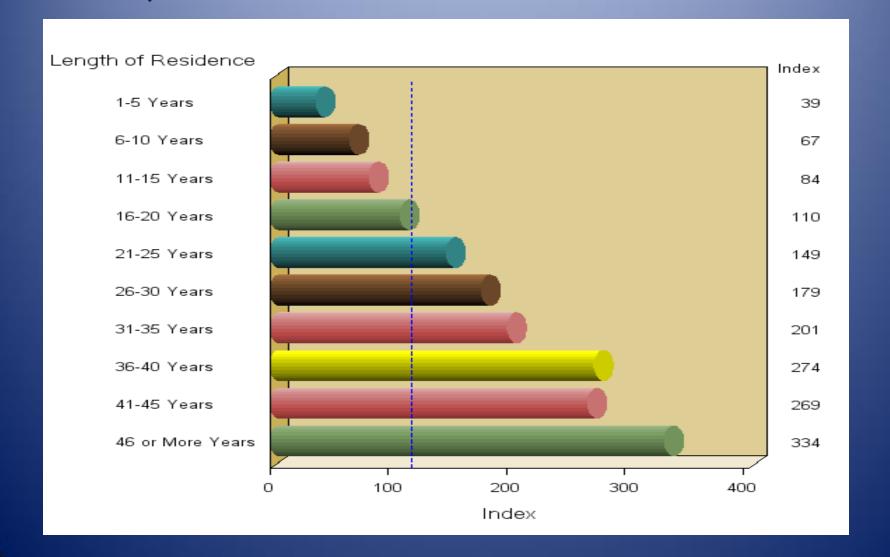

#### Purchasing Power Income Detector

Under \$20,000 \$20,000 - \$29,999 \$30,000 - \$39,999 \$40,000 - \$49,999 \$50,000 - \$59,999 \$60,000 - \$69,999 \$70,000 - \$79,999 \$80,000 - \$89,999 \$90,000 - \$99,999 \$100,000 - \$124,999 \$125,000 - \$149,999 \$150,000 - \$174,999 \$175,000 - \$199,999 \$200,000 - \$249,999 \$250,000 - \$299,999 \$300,000 - \$399,999 \$400,000 - \$499,999 \$500,000 Plus

Total service area: 1.2 million households

Likely donors: 110,000 households

#### ROI and LTV

Developing a smart, data-driven strategy focusing on ROI and monitoring performance to this standard...but not sweating year-over-year ROI too much! Focus on Lifetime Value of acquired donors.

- -62% new donors retained into second year
- -85% retained into third year
- -95% after 3 years retained
- -\$52 average first gift
- -\$82 average gift after 3 years

## Build a strong stewardship program and trust it to establish a strong Lifetime Donor Value

List of 77,000
6 direct touches per household
Supported by advertising, PR, social

Year 1 Results

2,100 new donors

\$52 Average Gift

\$109,200 in total giving

\$110,000 total acquisition cost

#### LTV calculation

Donations in 1 year	2100			
Pre-debit attrition	0%			
Fulfillment rate	100%			% donor base eoy
Attrition 1st year	35%	Retention 1st year	65%	65%
Attrition 2nd year	20%	Retention 2nd year	80%	52%
Attrition 3rd year	15%	Retention 3rd year	85%	44%
Attrition 4th year	10%	Retention 4th year	90%	40%
Attrition 5th year	5%	Retention 5th year	95%	38%
Cost of recruitment (sign-up):	53			
Yearly cost of Continuing Support per donor	5			

Without Costs	LTV 1 year	LTV 2 year	LTV 3 year	LTV 4 year	LTV 5 year
Gross Average LTV per acquisition	1693	2914	3921	4801	5616
LTV gain per year		1221	1007	881	814
Considering Costs	LTV 1 year	LTV 2 year	LTV 3 year	LTV 4 year	LTV 5 year
Considering Costs  Cost per year	LTV 1 year	LTV 2 year	LTV 3 year	LTV 4 year	LTV 5 year
		<b>LTV 2 year</b> 3 2854		LTV 4 year 1 4739	LTV 5 year 1 5552

Year 1 loss of \$800 BUT... \$3,555,300 gross LTV

-Get younger and more geographically, economically, psychographically diverse.

Different creative approaches in messaging, production, and channel development.

Take the pledge to help your neighbors living without power. www.fuelfundmaryland.org

21 new donors\$26 average gift\$546 total raised\$21,000 total campaign cost

LTV: -\$20,998

#### What we learned...

- Balance short and long term metrics ROI, retention, LTV
- Quality then quantity
- LTV is the primary measure of success
- Make the most of your strengths first!!
- This is a primary and NOT a general election
- Be careful in trying to create a market
- Always find resources to test new creative approaches and new channels but recognize their limitations
