LIHEAP FY2023 Profile

Data are current as of April 30, 2024. For more information, see https://liheappm.acf.hhs.gov/

These figures are based on the income-eligible population for the entire state. 13 tribal grant recipients in Alaska administer LIHEAP separately from the state of Alaska and are not included in the households served in this profile.

*Total Funding Available includes \$7,369,840 returned to the federal government.

** U.S. Census Bureau. "Household Pulse Survey, Cycle 09."

LIHEAP Fast Facts

The Low Income Home Energy Assistance Program (LIHEAP) provides crucial financial assistance to help low-income families afford energy costs.

Households Supported

Nearly 6 million households across the US received assistance from LIHEAP in 2023.

More than 60,000 homes were weatherized with LIHEAP funds in 2023, making them more energyefficient.

Disconnections Prevented

In 2023, LIHEAP prevented energy disconnections or reconnected households 2.75 million times.

2.75 million

Poverty Impact

In 2023, energy assistance helped lift 34,000 children and 68,000 older adults out of poverty.

LIHEAP plays a crucial role in helping income-constrained families afford energy costs, preventing disconnections, and improving energy efficiency, ultimately impacting poverty levels and enhancing the overall well-being and safety of vulnerable households.
