INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
The National Energy and Utility Affordability Coalition
Arlington, Virginia

Opinion

We have audited the financial statements of The National Energy and Utility Affordability Coalition, which comprise the statements of financial position as of December 31, 2024 and 2023, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of The National Energy and Utility Affordability Coalition as of December 31, 2024 and 2023, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The National Energy and Utility Affordability Coalition and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The National Energy and Utility Affordability Coalition's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The National Energy and Utility Affordability Coalition's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The National Energy and Utility Affordability Coalition's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

THE NATIONAL ENERGY AND UTILITY AFFORDABILITY COALITION
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

The National Energy and Utility Affordability Coalition (Coalition), a 501(c)(3) nonprofit organization, is a broad-based coalition of diverse member organizations and individuals dedicated to heightening awareness of the energy and utility affordability needs of vulnerable households, fostering public-private partnerships and engaging in advocacy, education, and other activities to help address these needs. The Coalition is primarily funded by membership dues, conference fees, and contributions and grants.

Promises to Give

Unconditional promises to give are recognized as revenues in the period received and as assets, decreases of liabilities, or expenses depending on the form of the benefits received. Conditional promises to give are recognized only when the conditions on which they depend are substantially met and the promises become unconditional.

All promises to give are expected to be collected within one year of the statements of financial position date.

Contributions and Grants

Contributions and grants received are recorded as increases in net assets without donor restrictions and net assets with donor restrictions depending on the existence of any donor restrictions. When a restriction expires, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of activities as net assets released from restrictions.

Program Service Revenue

The Coalition's earned revenue consists of membership dues and conference revenue.

The Coalition recognizes revenue from membership dues ratably over the applicable membership period, which is on a calendar year basis. The Coalition generally bills members in the fourth quarter of the fiscal year preceding the applicable membership period. Membership dues received in advance of the applicable membership period are deferred and recognized as revenue in that future period. Membership dues are nonrefundable.

Revenue from conferences (for example, registrations and exhibit booth space) is recognized at a point in time or over the period of the conference.

The Coalition's deferred revenue from contracts with customers are as follows:

	2024	2023
Beginning of year	\$ 64,841	\$ 59,606
End of year	83,520	64,841

THE NATIONAL ENERGY AND UTILITY AFFORDABILITY COALITION
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Leases

The Coalition does not recognize short-term leases in the statement of financial position. For these leases, the Coalition recognizes the lease payments in the change in net assets on a straight-line basis over the lease term and variable lease payments in the period in which the obligation for those payments is incurred. The Coalition also does not separate nonlease components from lease components for all classes of underlying assets and instead accounts for each separate lease component and the nonlease components associated with that lease component as a single lease component. If the rate implicit in the lease is not readily determinable, the Coalition uses a risk-free rate as the discount rate for the lease for all classes of underlying assets.

Income Tax Status

The Coalition is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. In addition, the Coalition qualifies for the charitable contribution deduction under Section 170(b)(1)(A) and has been classified as an organization other than a private foundation under Section 509(a)(2).

Expense Allocation

The financial statements report certain categories of expenses that are attributable to more than one program service or supporting activity. Therefore, these expenses require allocation on a reasonable basis that is consistently applied. The expenses that are allocated include personnel, professional fees, occupancy, travel, information technology, and miscellaneous, which are allocated based on time, effort, and resources devoted to each function.

Date of Management's Review

Management has evaluated subsequent events through August 29, 2025, the date which the financial statements were available to be issued.

THE NATIONAL ENERGY AND UTILITY AFFORDABILITY COALITION
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 2 – OPERATING LEASE

The Coalition has an operating lease for office space in Washington, D.C., which expires in February 2026. Total operating lease expense for the years ended December 31, 2024 and 2023 was \$12,890 each year. There are no variable lease components associated with the Coalition's lease.

Other informational related to leases are as follows:

	<u>2024</u>	<u>2023</u>
Cash payments classified as part of operating cash flows for amounts included in the measurement of operating lease liability		
Operating cash flows from operating leases	\$ 12,890	\$ 12,890
Right-of-use assets obtained in exchange for new operating lease liability	-	52,207
Weighted average remaining lease term		
Operating lease	1.17 years	2.17 years
Weighted average discount rate		
Operating lease	1.37%	1.37%

The maturities of operating lease liabilities as of December 31, 2024 are as follows:

Year ending December 31:	
2025	\$ 13,441
2026	<u>2,251</u>
Total minimum lease payments	15,692
Imputed interest	<u>(116)</u>
Total lease liability	<u>\$ 15,575</u>

NOTE 3 – CONCENTRATIONS OF CREDIT RISK

The Coalition maintains its cash balance at multiple financial institutions located in Virginia. The balances are insured by the Federal Deposit Insurance Corporation up to \$250,000. At December 31, 2024 and 2023, the Coalition's cash balances are fully insured by the FDIC as the Coalition's cash is held in a sweep account, fully insuring the cash balance

THE NATIONAL ENERGY AND UTILITY AFFORDABILITY COALITION
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 4 – COMMITMENTS

The Coalition has entered into agreements with hotels for its future conferences and meetings. These agreements indicate that the Coalition would be liable for certain fees and liquidated damages in the event of cancellation. These expenses are recorded at the time there is a decision to cancel. As of December 31, 2024, cancellations could cause the Coalition to be liable up to approximately \$797,000.

NOTE 5 – RETIREMENT PLAN

In 2022, the Coalition established a 401(k) profit sharing plan covering all of its full-time employees immediately upon hire. Participants under the 401(k) plan may contribute any amount within statutory limits. The Coalition makes elective contributions annually at its discretion. For the years ended December 31, 2024 and 2023, retirement plan expense was \$10,537 and \$9,750, respectively.

NOTE 6 – LIQUIDITY AND AVAILABILITY

At December 31, 2024 and 2023, the Coalition has \$1,296,602 and \$1,416,613, respectively, of financial assets available within one year of the statements of financial position date to meet cash needs for general expenditures consisting of cash and unconditional promises to give. None of these financial assets are subject to donor or other contractual restrictions that would make them unavailable for general expenditure within one year of the statements of financial position date. The Coalition is substantially supported by contributions and grants, including contributions with donor restrictions. Because a donor's restriction requires resources to be used in a particular manner or time period, the Coalition must maintain sufficient resources to meet those responsibilities to its donors. The Coalition has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations become due.
